HIDDEN FASTENER PANEL

## **LONG-TERM PROTECTION**

### **WITH PROVEN PERFORMANCE**

*The 2.5 Trapezoidal Standing Seam panel from Metal Exteriors is a durable, concealed-fastener roofing and wall system designed for clean lines, reliable performance, and long-term protection. Featuring a 2.5-inch rib height, 18-inch panel coverage, and mechanically seamed construction, it is manufactured from 24-gauge Grade 50 steel for added strength and durability.*

*Available in custom lengths and a range of rich color options, the panel also includes jobsite runoff and is backed by a strong warranty.*
